1. During the month of December 1953 EMOA (Royal Hellenic Air Force Jet Training Center) flew their US T-33 aircraft on night flight transitions and instrument training missions. There were no special missions flown. A record total of 383:40 hours flying was established in December. The in-commission rate was 69.1%, 18.1% out of commission for maintenance and 12.8% for parts.
2. The number of instructor pilots was increased from 10 to 12; however, this is still three below the anticipated total of 15. Three additional instructor pilots are to graduate from their training program approximately 10 Jan 54.
3. There were 23 flying days during December with only one day when flying was restricted on account of weather.
4. The maintenance and supply situations have improved somewhat because the T-33 hanger maintenance crews were increased from two to three.
